

March 21-25, 2011

Workshop

Young Set Theory

Scientific Committee: Bart Kastermans (chair), Daisuke Ikegami, Julien Melleray, Marcin Sabok, Sean Cox, Thomas Johnstone, Vera Fischer

Organizers: Andrew Brooke-Taylor, Benjamin Seyfferth, Ioanna Dimitriou, Miguel Angel Mota, Philipp Schlicht (chair), Thilo Weinert

This workshop brings together postgraduates and postdocs in set theory in order to learn from senior researchers in the field, hear about the latest research, and to discuss research issues in small focused groups. The format of the workshop consists of tutorials in the morning and discussions and talks in the afternoon.

The workshop takes place March 21-25, 2011 in Königswinter near Bonn, with Sunday March 20 for arrivals. For more information please see the conference website www.math.uni-bonn.de/people/logic/events/young-set-theory-2011/

Tutorial speakers:

Ali Enayat, Joel Hamkins, Juris Steprans, Slawomir Solecki

Postdoc speakers:

Assaf Rinot, David Schrittemser, Dilip Raghavan, Grigor Sargsyan, Katie Thompson, Samuel Coskey

Call for participation: Please register by email to ystw2011@hcm.uni-bonn.de by January 3, 2011. A limited number of travel grants and/or registration fee waivers are available. The application deadline is December 10, 2010. To apply, please send an email to ystw2011@hcm.uni-bonn.de and include a one page research statement. Student ASL members are encouraged to apply with the ASL for a student travel award by December 20, 2010. For more information please see the conference website.
