The University of Bonn is an international research university with a wide education and research profile. With a 200-year history, approximately 31,500 students, more than 6,000 staff, and an excellent reputation at home and abroad, the University of Bonn is one of the most important universities in Germany and is recognized as a University of Excellence.

The Mathematical Institute of the Faculty of Mathematics and Natural Sciences at the University of Bonn invites applications for a tenured

W2 Professorship in Pure Mathematics

to be filled as soon as possible.

We seek internationally renowned scientists in an area of pure mathematics, complementing the areas represented by the existing research groups.

The successful candidate will be member of the Hausdorff Center for Mathematics, and is expected to actively participate in the acquisition of further third-party research funding. Teaching is to be done in German and English in all phases of the study programs in mathematics. Relevant teaching experience is expected. Knowledge of German language is not required, but is expected to be acquired in the course of the first years. Participation in academic administration is expected.

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university. It aims to increase the proportion of women in areas where women are under-represented and to promote their careers in particular. It therefore strongly encourages women with relevant qualifications to apply. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome.

Applications, including CV, publication list, teaching record, and research statement, should be submitted no later than September 30, 2025 via the appointment portal of the University of Bonn: https://berufungsportal-version3.uni-bonn.de/
